** BELIZE. 28258 CW, Sept 25 at 2203, ten E`s and VVV DE V31HQ/B. WGB list: ``28258 V31HQ/B - Belmopan BLZ EK57nf - #0 (25 Apr 2024) Note: VVV ID + grid + E × 10 - Pwr 10w`` - previously heard April 1 & May 1, qq.vv. (Glenn Hauser, OK, WOR)

** BRAZIL. 28270.5 CW, Sept 25 at 2205, VVV PY4MAB, dash. Beacon previously heard Sept 18, q.v. (Glenn Hauser, OK, WOR)

** CANADA. 28197 CW, Sept 20 at 2204, DE VE7MTY/B and 4 step-down power dashes; and on 28174, VVV DE VE1VDM/B, and series of dits/E`s, so 10m beacons from coast to coast. Also several phones higher up from South America; see CHILE (Glenn Hauser, OK, WOR)

** CANADA [non]. 11990, Pop Shop Radio via Woofferton, 0300 UT Sept 10, QSL card in pmail received Sept 21, with enclosures: schedule, two logo stickers, Maple Leaf cutout bearing a bear and ``Hope BC``; round fabric Maple Leaf patch as on flag. Very nicely done (Glenn Hauser, OK, WOR)

** CHILE. 28450 USB, Sept 20 at 2211, CE3KEY calling CQ DX after working a Canadian. QRZ.com: ``CE3KEY Chile flag Chile, Leonardo (Leo) Bonilla, Santiago, Chile`` (Glenn Hauser, OK, WOR)

** CUBA. 5025, Sept 20 at 0637, S9+45 of dead air in Spanish from R. Rebelde, hohum; something`s always wrong at RadioCuba (Glenn Hauser, OK, WOR)

** CUBA. 5025, Sept 21 at 0640, S9+35/45 of dead air in Spanish from R. Rebelde, as usual. Something`s always wrong at RadioCuba (Glenn Hauser, OK, WOR)

** CUBA. 5025, Sept 24 at 0700, R. Rebelde not dead air but children`s chorus, not anthem, and JBA // on MW 1620. Something`s not always wrong at RadioCuba (Glenn Hauser, OK, WOR)

** CUBA. 6000, Sept 24 at 0657, S9+15/25 of dead air as RHC has failed to turn off transmitter earlier. Something`s always wrong at RHC. See also 9790 (Glenn Hauser, OK, WOR)

** CUBA. 15230, Sept 22 at 0315, suptorted Spanish at S9+20/30. Something`s always wrong at RHC. English on 6000 also emitting. 15230, Sept 22 at 1436, S6/S8 of dead air direct. By 1500 it`s off into Maryland SDR; if on, the DA might have been in Esperanto (Glenn Hauser, OK, WOR)

** CUBA [and non]. 9790, Sept 24 at 0651, S9/+20 dead air but trace of modulation: surely CRI relay transmitter until 0500 failed to turn off, blowing away RFI in French at 0600-0700, which is normally audible without the Cublock. Something`s always wrong at RadioCuba. 6000 also still on (Glenn Hauser, OK, WOR)

** FRANCE. 9490.1, Sept 22 at 0305, S7/S9 open carrier or is it JBM? Evidently the defective Issoudun not turned off as RMI`s R. República is supposedly scheduled now for only one hour at 0100 on days 712345 and 6. It was/is subject to jamming but unseems that now (Glenn Hauser, OK, WOR)

** GERMANY. ``Shortwave Radio out of summer-mode. Back to normal tomorrow. Schedule below. -- Hi Glenn, we are back from our holidays after 3 months. European daytime propagation slowly to normal. Back to schedule some 3 month ago. WOR now back again on 6160 at 0830 UTC on Mondays. New schedule with change of broadcast season to B-24 on 27th October. Will let you know.

"Hi SWR fans, after three months of reduced broadcasting time, we are finally back and present our autumn schedule, which is as follows:
6160 kHz: 07:00 to 22:00 UTC (09:00 to 00:00 CEST) - daily
3975 kHz: 17:00 to 00:00 UTC (19:00 to 02:00 CEST) - daily"
https://shortwaveradio.de/en/A-24b
73's, Andy (Engineer SWR from Winsen at the river Aller, Germany)``, Sept 22
(via Glenn Hauser, WOR)

** GERMANY. 6070.001, Sat Sept 21 at 1900-2000, `Uncle Bill`s Melting Pot`, monthly via Channel 292, enjoyable music from RGS and Santa Catarina states in southern Brasil, not your samba stuff, but even a polka? UTwente worx fine for this time and frequency. Better than on // 3955 (Glenn Hauser, OK, WOR)

** GERMANY. 7390, Sept 23 at 0458-0500* direct, jazz until cutoff with no announcement; whatsit? EiBi: AWR in French to N Africa via Nauen at 0430 (Glenn Hauser, OK, WOR)

** JAPAN. 6055 & 6115, Sept 25 at 0642, JBA carriers, no doubt R. Nikkei 1 & 2. LSS is finally early enough, 0833 UT to start propagating them during my habitual bedtime monitoring window from ~0630 even tho two hours earlier (Glenn Hauser, OK, WOR)

** MEXICO. 800, Sept 19 from 0620, the extremely distorted signal is certainly XEERG, Ojo de Agua, Nuevo León. After two nights of hearing horribly distorted QRM to KQCV 800 OKC, not noted earlier UT Sept 19 during primetime, but again now at 0620, altho not as severe as before. See previous reports under OKLAHOMA [and non].

This time I`m checking remote receivers. NOT heard in OKC, so not a defect of KQCV itself. Not heard at Durango2 SDR. But YES, audible at these: Querétaro; Austin TX; even Truth or Consequences NM making me wonder if XEROK could be attempting a comeback. At 0625 am also hearing it quite well at McAllen TX SDR in the RGV, so I stick with that. Without KQCV or other QRM there, I can tell there are Spanish announcements between rock tunes. At 0638, Spanish ID mentions ``92.9``. A BIG clue, so let`s take another look at listings:

mwlist: ``800 MEX XEERG RG La Deportiva 92.9 FM Ojo de Agua * 10/2.5 relays
XHERG 92.9 MHz, ex XEDD La Tremenda``

Who cares what state it`s in? Mwlist does not. But they should, since there are more than one Ojo de Agua in the country! Google searching without specifying Nuevo León leads to the major one in Estado de México. But look at this in the 2024 IRCA Mexican Log:

``800 XEERG NL Ojo de Agua 10000 2500 R-G La Deportiva 24h? SPT ORO // XERG 690 AM, XHERG 92.9 FM, and XHFMTU 103.7 FM-HD2. ex-XEDD. Stereo. Staying on AM per IFT. Active on AM 11/23 (logged by DXer) and included in 8/24 IFT list. This station was purchased because of its powerful FM license, giving the operator of XERG 690 AM an FM "rim shot" into Monterrey``

Facebook: ``La localidad de Ojo de Agua está situado en el Municipio de Agualeguas (en el Estado de Nuevo León). Tiene 82 habitantes. Ojo de Agua está a 380 metros de altitud.``

So there we have both an FM frequency match and a geographical match for XEERG near Monterrey. We do not have a format match, but it would not be unusual for a sports station to be playing music instead in the nightmiddle. On distorted 800, I hear another announcement break at 0642 before quitting SDR. Final check direct at 0647: less distorted

music still QRMing KQCV.

Then in the daytime at 1615 UT, I check McAllen again: and there it is by groundwave on 800, extremely distorted talk, presumably about sports. Non-local strength, only S5. While monitoring via McAllen remote in the night, I did not yet know about the // on 690. But now at 1620 there is ALSO NON-distorted sports talk mentioning Monterrey, on 690. By 1710, no signal on 690, off? but still distorted on 800. This is not splatter from anything on 790 or 810. The TWR Brownsville SDR is not available. BTW when I first checked the new McAllen SDR a few days ago, it was deaf below 1800 kHz, but not anymore. I had previously asked if anyone else was hearing the distorted 800, but no replies (Glenn Hauser, OK, WORLD OF RADIO 2261)

** MEXICO. 800, Sept 20 at 0620, KQCV OKC with just a bit of distorted QRM, along with several others like CKLW, PJB. McAllen SDR check at 1558 daytime: still extreme distorted talk on 800, and matching cadence on non-distorted 690. BTW, Mauno Ritola points out that while the ``quick & easy`` version of mwlist does not specify Mexican states, the full database does (Glenn Hauser, OK, WOR)

** MEXICO [and non]. 800, Sept 25 at 0709 UT, KQCV OKC again with extremely distorted musiQRM, no doubt XEERG NL as I previously discovered. How I accomplished that was totally deleted by the IRCA DXWW editor, yet there were complaints about my explaining such things in a Forum! (Glenn Hauser, OK, WOR)

** MEXICO. 1460, Sept 20 at 0628, ``Grupo Fórmula`` mentioned as I tune across. IRCA Mexican log shows only two active on 1460, and one ORF: XEYC 1/1 kW Ciudad Juárez, Chih. (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 7475.62 approx., Sept 22 at 0307, algo JBM presumably anti-Christ pirate Station YHWH as nothing on 7475.0 where it had always been reliably. Offfrequenciness also noted by Walt Salmaniw (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 11514.9, Sept 20 at 1510, JBA signal from ex-Hikari FM pirate. Also Sept 21 at 0020, JBA carrier vs S7/8 noise level on about 11514.92 (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 11514.9, Sept 22 at 0312, usual JBA carrier on signature off-frequency of Hikari FM or whatever pirate allegedly in Sonora (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 11514.9, Sept 25 at 0054, JBA carrier no doubt from Hikari FM, pirate. Apparently still called that per other loggers (Glenn Hauser, OK, WOR)

** OKLAHOMA. 27224.85 AM, Sept 22 at 1931, ``Hallelujah`` gospel music and Kay-Love ID, as the Enid CB pirate has resumed relaying and // 105.5, K288FX, translator of KYLV OKC 88.9, S9/+10. Only here and not on 27185v which had been primary, nor any other nearby channel. Last heard Sept 7 on both; and Sept 10 on 27184v only relaying something else (Glenn Hauser, Enid, WOR)

** OKLAHOMA. RF 13 & virtual 13-1 & 13-2, Sept 24 at 2320-2340 UT, KETA OKC, OETA suddenly loses feed from PBS including `Newshour` on 13-1. Exactly when OKC is getting hit by a hailstorm. After some black screens, Tech Difficulties slide. I imagine their satellite dish full of hailstones! Simultaneously the commercial stations are in full coverage of the storm, especially KOCO ``5`` RF7, which was showing the axual hail hitting the ground, cars, etc. Warning of up to baseball-size. They had dumped out of ABC News circa 2250 UT before it was finished. KFOR ``4`` RF 27 pre-empted its regular 6 pm newscast for this. Normally it replays at 0535 UT, but on Sept 25 they replayed

NBC Eveningly News instead. None of this hail bothered Enid (Glenn Hauser, OK, WOR)

** PERU. 4955, Sept 22 at 0311, JBA carrier, presumably R. Cultural Amauta, Huanta, certainly the toughest of active Peruvians here, normally not even this audible. Not in WRTH 2024, but often reported at least by S American DXers (Glenn Hauser, OK, WOR)

** SPAIN. 17855, Fri Sept 200 at 2200, token English from SNR, VG direct and also on 17715, 15520 but still no 15390. Preview interview topic to be about paralympix (Glenn Hauser, OK, WOR)

** SPAIN. 17855, Mon Sept 23 at 2200, token English from SNR, VG S9+30/40 direct, also on 17715 and 15520, never on 15390. News leads with UN SG calling for change in its struxure; no time to listen more (Glenn Hauser, OK, WOR)

** SPAIN. 17855, Wed Sept 25 at 2200, token English from SNR is S9/+10 with flutter direct, as well as on SAm frequency which axually sounds better. 15520 S9/+10 no worse despite oppositely; and 15390 still AWOL. Something`s notright at Noblejas. Not really listenable (Glenn Hauser, OK, WOR)

** SUDAN SOUTH [non]. 15550.015+, Sept 20 at 1508, Arabish S8/S9 direct and slightly off-frequency plus. Check UTwente just in time before 1527* readout 15 Hz high as above, it`s R. Tamazuj from site MADAGASCAR but at 1445-1600, not -1527* per HFCC, EiBi and Aoki. EiBi shows sibling service R. Dabanga for Darfur follows on 15550 from 1600 via Vatican, and 1700-1730 via France (Glenn Hauser, OK, WOR)

** TURKEY. 11785.004+, Sept 20 at 2159 tune-in, S9+20/30 direct, VOT English is already signing-on instead of IS, and starting olds: their clock must be fast. Something`s always awry at Ankara. 2215 in music. 2228 into UTwente when measured, music at S9+35/40. 2230 `Turkish Folk Tales`, ``The Nightingale``. 2234 TRTVOTVorld.com promo. 2235 music. 2240 `That`s Why` repeat, Archaeological Adventure in Anatolia: the Hittites. 2246 ``with-you-every-hour`` promo, music. 2251 headlines, 2252 s/off and IS until 2253.5* (Glenn Hauser, OK, WOR)

** TURKEY. 11785.005+, Sat Sept 21 at 2159, VOT English not off the air, S9+45 VG into UTwente, s/on as if it were 1230 on 17620, something`s always awry at Ankara, into olds. 2217 ending `The Energy Agenda` and starting `Turkey`s Geomarked Products` about leather from near border with Iran. 2221 music. 2224 another song. 2228 another. 2236 more music. 2241, 2245 another tune... (Glenn Hauser, OK, WOR)

** TURKEY. 11785.005+, Sept 21 at 2252 after a full half-hour of nothing but music, which is very nice but never identified, VOT English sign-off by Efsun the accentuated as if on 17620 after 1230, something`s always awry at Ankara, 2253.5 IS briefly to 2253.7* chop, no finesse. Something`s always erroneous at Emirler (Glenn Hauser, OK, WOR)

** TURKEY [and non]. 9875.003+, Sunday Sept 22 at 2040, I`m QRX for VOT `Letterbox` now instead of waiting until a sesquihour later on 11785, which may or may not be on air, and conflicting with a lot of other programming I want to get. This transmission is 500 kW at 105 degrees for India, SE Asia, Australia, NZ, but plenty backward signal into UTwente, S9+15/25 atop some CCI which would be North Korea, should be avoided. At 2045 ends sports, ``always-by-your-side`` promo and `Weekly Analysis` by John ``Adja`` sounds like, a foreign policy researcher, about pagers as weapons. 2050 music. 2057 ``with-you-every-hour`` promo and `Letterbox`: Halil is ``not that well, voice not much good``, he apologizes but sounds OK to me. 1) Siddartha ---, India, reception report from a regular. 2) USA, John

Fryberg? Jr., New Hampshire. Now at 2050 the CCI relents, as VOK stops aiming at ME, but resumes at 2100 toward FE, much weaker. 3) Roman Steiner, Germany; or Norman? 4) Roberto Brizzo? or Guizzo?, Italy. 5) Mr. Markey?, India. 6) André/Anatoly Klepov, Moskva, another regular QSL seeker. 7) Carlo Giordani, Italy. By 2106, time`s up, ``Goodbye, my lovely dear listeners, goodbye``. 2107 music and I tune out (Glenn Hauser, OK, WOR)

** TURKEY [and non]. 11785.005, Sunday Sept 22 at 2159, VOT not off air but S9+50/55 into UTwente, 2200 ~correct timesig and open English, but I don`t need to keep listening since I got `Letterbox` a sesquihour earlier on 9875, q.v. However, I check UTwente again for s/off, but it`s still going at 2259, 2300 timesig, and German, which continues the entire hour! as not scheduled, with the same program themes we hear in English, such as at 2334 for ``Warum?`` At 2356 IS still playing with Portuguese! IDs, but cutoff 2359* before another extraneous language. EiBi shows PP at 00-01 and SS at 01-02 are supposed to be on 9870. Just as well, because at *0000 Chinese on 11785.000 as the ChiCom achieve better frequency accuracy, much weaker than TRT had been. EiBi shows CRI Mandarin at 00-13 via site x. There are several sites x+ but a single x means: ``x-Xian-Xianyang "594" (Shaanxi) 34N12-108E54`` (Glenn Hauser, OK, WOR)

** TURKEY. 11785, Sept 23 at 2159, nosig from VOT English direct, but *2200.3 cuts on JBA carrier with Doppler flutter, bad prop? Yet Spain q.v. is inbooming on 17855 et al. By 2203 recheck, 11785 is off, so another occasion trying to come up on 11785 but failing. Something`s always erroneous at Emirler (Glenn Hauser, OK, WOR)

** TURKEY. 11785.005, Sept 24 at 2220 check direct, VOT English not off the air. Into UTwente at 2247 when measured, S9+45/50 ending `Turkey`s Geomarked Products`, music. 2252 ``with-you-every-hour`` promo. 2253 s/off the 1230 on 17620. Something`s always awry at Ankara. 2253 IS briefly to 2253.7* (Glenn Hauser, OK, WOR)

** TURKEY. 11785.006, Sept 25 at 2157, VOT IS and English IDs, S9+10/20 direct but heavy flutter. 2200 accurate TS and s/on as if it`s 1230 on 17620. By 2221 into UTwente when measured, S9+45/50 VG with no flutter, Efsun the axentuated about sports, tennis, until 2222 outro as `Unexpected Twists of Fate`, music. 2227 `The Middle East and Turkey`, about reducing dependence on Russia for energy. 2253 headlines, s/off still pretending it`s on 17620, something`s always awry at Ankara; a few notes of IS until chop by 2254*, no finesse, something`s always erroneous at Emirler (Glenn Hauser, OK, WOR)

** U K [non]. 17745.009+, Fri Sept 20 at 1511, S5/S7 direct of 19-second announcement with music, looping with pauses, restarting every 36 seconds: ``BBC --- This is the BBC; there are no programmmes on this channel at present. Details of all our services are at bbcworldservice.com`` Lotsa luck finding anything about this there. At 1528 into UTwente when measured, S9+30/35. Keeps going past 1530 and even past 1600!

Per HFCC & EiBi, this is amid a 17745 weekday sesquihour pause between: Somali 1400-1500 at 225 degrees via UAE, and Kinyarwanda 1630-1700 at 315 degrees via MADAGASCAR, i.e. thisaway. I`d opt for the latter site at this strength. But why waste all those 250 kW? On weekends, Somali is sked straight thru, 11-17 via UAE, 17-19 via Oman (Glenn Hauser, OK, WOR)

** U S A [and non]. ND beacon bandscan, Sept 25 at 0655 UT, JBA but enough to copy the MCW calls u.o.s.:
255, SW, StillWater OK
293, FBY, FairBurY NE
305, RO, ROswell NM

329, PMV, PlattsMouth NE
332, IC, wIChita KS
334, ? carrier, only 3 listed in NAm, IL, MS, ON, none familiar
338, ? carrier, maybe RYN Tucson AZ, or TU TUlsa OK
346, YXL and dash, SiouX Lookout ON
353, LI, LIttle Rock AR
395, CA, Newton/Harvs KS
407, HRU, HeRington KS, also audible at 404 USB
515, PN, PoNca City OK
I would really like to hear some new ones (Glenn Hauser, OK, WOR)

** U S A. 28200+ CW, Sept 20 at 2207, twenty T`s in a row and long pause, probably this in WGB list: ``28200.5  N4WLO - Theodore AL USA EM50uo - #0 (19 Sept 2024) Note: ID only, every 10 min. at: 1/11/21/31... + dashes between cicles`` {sic} (Glenn Hauser, OK, WOR)

** U S A. 28201 CW, Sept 25 at 2202, 20 T`s or short dashes, and long pauses, i.e. the pattern of N4WLO, Theodore AL as previously reported, WGB listed at 28200.5 (Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2260 monitoring: confirmed UT Thursday September 19 at 0130 on WRMI, 5010 direct, S9+15/20 in high storm noise level, and also a few noise burst QRMs briefly. Followed `Frecuencia al Día`, and some music fill, no ID before WOR.

Also confirmed Thursday September 19 from 1630.7 on SW Gold Radio, Germany, 6160.000+, S9+5 into UTwente. Following ID as ``Shortwave Radio, Germany`` on both 6160 and 3975, but 3975 is not on yet, scheduled from 1700.

WORLD OF RADIO 2261 contents: Australia [time for SW Australia: Sept 16 at 1325], Brasil, Chile, Denmark, East Turkistan, Germany [UBMP on Sat Sept 21], Indonesia, (Iran), Israel non, Japan, Korea North & South, México, Mongolia, New Zealand, North America, Oklahoma, (Oman), Puerto Rico, Russia, Sa`udi Arabia and non, Spain, Thailand, Turkey, Ukraine, UK and non, USA; propagation outlook - (countries mentioned along with others not in order)

WOR 2261 available from 0030 UT Friday September 20:
(mp3 stream) https://www.w4uvh.net/wor2261.m3u

1630 UT Thursday SW Radio, Germany 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2261 monitoring: confirmed UT Saturday September 21 at *0307 on WTWW 5085: had been on the air previous hour, but off the air at 0300, cut back on with WOR in progress. Followed 0329-0331* by 2 minutes of music before turnoff. As always, VG signal direct.

``5085. Sat, Sep 21, 2024. 0259-0330, WTWW, Lebanon-TN, in English. Man announcer says ID and more; 0300 Stay off-air; 0308, approximately, returns on-air with Glenn, on the way, reading the logs, without the traditional opening your WOR program; 0329 Brief music, ID and ending; 0330 Off and no returns. Fair reception: 35433. JRX (José Ronaldo Xavier, (75), Cabedelo-Paraíba, Brasil``

Also confirmed Saturday September 21 at 0949 the 0930 on WRMI 9455,

S9+20 direct as I happen to awaken during this semihour.

Also confirmed Saturday September 21 at 1448 the 1430 on SW Gold Radio, Germany, 6160.000+, S9 into UTwente; followed at 1500 by Weekend Music Radio, from Scotland.

Also confirmed Saturday September 21 at 1600 on WRN North America webcast.

Also confirmed Saturday September 21 at 1734 the 1730 on SW Gold Radio, Germany, 6160.001- at S9/+5 and 3975.002- at S9+5 into UTwente.

Also confirmed Saturday September 21 from 1959 the 1930v on WA0RCR, 1860 AM, MO, S9+15 groundwave into nearby SDR.

Also confirmed Saturday September 21 at 2000 on WRN Europe webcast.

Unfortunately, 9475 WTWW is off the air at 2226 and later chex, so part or all of WOR at 2300 may be missing like it was last night on 5085. 9930 with TOMBS is still on the air. Next:

2300 UT Saturday WTWW 9475;
0000 UT Sunday WRMI 9955 to SSE [also web-, phonecast; jammed?];
0230vUT Sunday WA0RCR 1860-AM [nominal 0315; as late as 0500];
1900 UT Sunday IRRS 1323-Italy;
2130 UT Sunday SW Radio, Germany 3975 & 6160;
2330 UT Sunday WRMI 7570 to NW;
0030 UT Monday WRMI 7780 to SW;
0300vUT Monday WBCQ Area 51 6160v to WSW [irregular];
1930 UT Monday SW Radio, Germany 3975 & 6160;
0330 UT Tuesday WRMI 7780 to SW;
1300 UT Tuesday WRMI 9955 to SSE [also web-, phonecast; jammed?];
2000 UT Tuesday IRRS 1323-Italy;
2330 UT Tuesday WRMI 9395 to NNW;
2330 UT Tuesday SW Radio, Germany 3975;
1930 UT Wednesday SW Radio, Germany 3975 & 6160;
2100 UT Wednesday WBCQ 7490v to WSW;
0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2261 monitoring: confirmed Saturday September 21 at 2300 on WTWW 9475, as transmitter came on just in time for 2259 ID and then WOR; had been off earlier in the hour. Thanks, George, for getting back on for WOR.

Also confirmed UT Sunday September 22 at 0000 on WRMI 9955, S9+10/30 into Cundinamarca, Colombia SDR.

Also confirmed UT Sunday September 22 at 0330 about 3 minutes into so started circa 0327 the 0315v on WA0RCR, 1860 AM, MO, S9+35 direct but that includes high storm noise level.

Also confirmed Sunday September 22 at 1900 on IRRS SW via AM Italia 1322.995- kHz, S9 but noisy into UTwente across Europe; following s/off announcement for SW ``7285`` but it`s really seasonally on 7290, not close enough. Next:

2130 UT Sunday SW Radio, Germany 3975 & 6160;
2330 UT Sunday WRMI 7570 to NW;
0030 UT Monday WRMI 7780 to SW;
0300vUT Monday WBCQ Area 51 6160v to WSW [irregular];
0830 UT Monday SW Radio, Germany 6160 [resumed];
1930 UT Monday SW Radio, Germany 3975 & 6160;

0330 UT Tuesday WRMI 7780 to SW;
1300 UT Tuesday WRMI 9955 to SSE [also web-, phonecast; jammed?];
2000 UT Tuesday IRRS 1323-Italy;
2330 UT Tuesday WRMI 9395 to NNW;
2330 UT Tuesday SW Radio, Germany 3975;
1930 UT Wednesday SW Radio, Germany 3975 & 6160;
2100 UT Wednesday WBCQ 7490v to WSW;
0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2261 monitoring: confirmed Sunday September 22 at 2157 the 2130 on SW Gold Radio, Germany, 3975.003-, S9+5/10 into UTwente.

Also confirmed Sunday September 22 at 2330 on WRMI 7570, S9/+20/35 into Maryland SDR altho aimed NW.

Also confirmed UT Monday September 23 at 0030 on WRMI 7780, S8/9+10 into Durango2 SDR.

Also confirmed UT Monday September 23 at 0305 the 0300 on Area 51 via WBCQ 6160 -70 Hz = 6159.93, S9/+10 into Georgia SDR, but JBA direct.

Also confirmed Monday September 23 at 1938 the 1930 on SW Gold Radio, Germany, 6160.001+ at S9+15 and 3975.003- at S8/9+10 into UTwente. Next:

0330 UT Tuesday WRMI 7780 to SW;
1300 UT Tuesday WRMI 9955 to SSE [also web-, phonecast; jammed?];
2000 UT Tuesday IRRS 1323-Italy;
2330 UT Tuesday WRMI 9395 to NNW;
2330 UT Tuesday SW Radio, Germany 3975;
1930 UT Wednesday SW Radio, Germany 3975 & 6160;
2100 UT Wednesday WBCQ 7490v to WSW;
0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2261 monitoring: confirmed UT Tuesday September 24 at 0330 on WRMI 7780, S9+20/30 but noisy direct, after ``Everglades`` ID. Next:

2330 UT Tuesday WRMI 9395 to NNW;
2330 UT Tuesday SW Radio, Germany 3975;
1930 UT Wednesday SW Radio, Germany 3975 & 6160;
2100 UT Wednesday WBCQ 7490v to WSW;
0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2261 monitoring: confirmed Tuesday September 24 at 2338 the 2330 on SW Gold Radio, Germany, 3975.002, S8/S9 into UTwente.

Also confirmed Tuesday September 24 at 2339 the 2330 on WRMI 9395, S9/+10 into Peoria IL SDR.

Also confirmed Wednesday September 24 at 1930 on SW Gold Radio, Germany, 6160.000, S9+10 into UTwente; // 3975 not checked.

Also confirmed Wednesday September 24 at 2100 on WBCQ 7490 - 67 Hz, S9+5 into Maryland SDR. Also checked UTwente at 2053 to find WBCQ JBA but locked in at 7489.932. Next:

0130 UT Thursday WRMI 5010 to S; {confirmed}
1630 UT Thursday SW Radio, Germany 6160.

As a non-commercial service, voluntary financial support appreciated. Thanks this week for a generous seasonal contribution for autumn from Gerald T. Pollard, Raleigh NC, by check on a US bank to Glenn Hauser, P O Box 1684, Enid OK 73702.

One may also contribute via PayPal in US funds but not necessarily to: woradio at yahoo.com (Glenn Hauser, OK, WOR)

** U S A. UNIDENTIFIED, at first: 9475, Sept 23 at 2208, zero signal from this WTWW direct, but 9930 is on. However, as I tune across the 9 MHz band at 2209-2219, I encounter numerous extremely distorted spurblobs, cadence of modulation is talk but totally unreadable, quite broad and shifty so no exact frequencies pinnable. Circa: 9416, 9546, 9676, 9682, 9692, 9802, 9828, 9918, 9943, 10059. I compare these on second radio to the only bigsigs on band at this time, 9930 WTWW, 9350 & 9980 WWCR, and there is NO match. So I suspect it`s the 9475 transmitter haywire again. At 2302, all clear, no 9475 nor spurs direct. Not paying close attn but at 2332* noise surge as 9475 carrier has been on but off again. By Sept 24 at *0011.5, 9475 on for half a minute; *0013 on again with open carrier, soon turning up mod of PPPP and stays on. At 0018, bandscan without any of those spurs while 9475 remains clean. Oops, 9475 cuts off again suddenly at 0024*. Cuts back on at *0028.7 JIP PPPP again. 0058 usual QSY announcement to 5085, which comes on about *0059. Stays on past 0150 more or less OK but some clunking sounds (Glenn Hauser, OK, WOR)

** U S A. 9475 WTWW: George McClintock replied to my report of spurs at 0315 Sept 24: ``Glenn, I had very bad transmitter problems. Just got 5085 on just a few hours ago. #1 transmitter also has problems. 2 transmitters off air at the same time. George McClintock 9-23-2024``. 9475 was off again Sept 24 at 2220 check, but on at 2307 (Glenn Hauser, OK, WOR)

** U S A. 9955, UT Sat Sept 21 at 0642 is // 5850 with non-BS gospel huxter, but must be TOM: instead of RFI in Spanish it usually has been airing during this hour. TOMBS on 9955 supposedly starts at 0500 weekends only (Glenn Hauser, OK, WOR)

** U S A. 5800, Sept 22 at 0300, Jeff White offers special QSL for reports about Freedom Synergy Radio which follows on 5800, if sent to radiomiami9 at gmail.com What about 9955? Previously I`ve caught them // but not now, rather a discussion of harpsichord-like instrument. I guess that`s R. Prague listed both on System B and H skeds. 9955 Sept 22 at 0632 with TOMBS as on sked, rather than RFI in Spanish which had been reality this hour (Glenn Hauser, OK, WOR)

** U S A. 9395, Monday Sept 23 at 2303, WRMI VG direct with `On the Media` soliciting SW reception reports and even audios about SWLing, 2305 into regular opening of show which is about disappearing and endangered weekly alt newspapers such as The Riverfront Times, St. Louis which was recently sold to who knows what and everyone fired! `OTM` has several times on the WRMI skedgrid, but not this one! Supposedly at 2300 Mon it`s `Viva Miami`, i.e. expendable, at 2315 `Midnight Cry Ministry` and at 2330 `Alameda Bible Fellow` which are surely paid for. Not rechecked until 2340 when in fact it`s a ponderous preacher, I think ABF, certainly not OTM, so it did not get played for a full hour! System G sked shows OTM Mondays 2100 and UT Tuesdays 0200 on 9395. OTM originates at WNYC: let`s hope it survive the major cutbacks there. I haven`t got into the habit of listening to it on WRMI, but really should if there`s a reliable complete hour for it (Glenn Hauser, OK, WOR)

** U S A. 5130 -74 Hz = 5129.926, Sept 20 at *2355, WBCQ comes on with IS and ID loop, but not 3265, S9/+10 into NH SDR. 2359 ``WBCQ, Radio Trump International on Radio Angela`` outdated ID, dead air and // 7490 after 0000 Sept 21, opening `AAAWWW` theme with first interjexion ``we have to fight for free speech``, etc. With Angela in Florida studio 9, right into politix, about taxes, ``Democrat crap``. Made worse by both of them, especially Angela, yelling, which from a studio makes their delusions even more of a turn-off. So I hardly pay attention but let this new episode run in background. 5130- goes to dead air at 0100 before they are quite finished; at 0102 canned WBCQ ID, more DA and off by 0103 (Glenn Hauser, OK, WOR)

** U S A. 660, Sept 21 at 0646 UT, unusual good signal with C&W music, rivaling 650 WSM. I bet it`s KTNN. Yes! at 0648 ID in English as ``KTNN, Window Rock, Arizona`` and two other towns. Obviously on 50 kW ND day pattern instead of protecting WFAN NYC as required, possiblizing much more interesting listening than stupid sportstalk, into the Midwest. Especially when they get to Navajo drumming and chanting (Glenn Hauser, OK, WOR)

** U S A. 660, Sept 25 at 0707, Navajo chanting and drumming, i.e. KTNN AZ again on ND day pattern; same time, 650 WSM Nashville inaudible; in a fade? (Glenn Hauser, OK, WOR)

** U S A. 1060, Sept 24 at 0703 UT, traffic report mentioning Delaware, weather, must be 50 kW KYW Philadelphia atop the channel; yes, then into ``final hour of Sports Philadelphia``. Not often heard; day and night patterns with NW/SE lobes and supposedly null thisaway! per NRC Pattern Book. Radio-locator
https://radio-locator.com/cgi-bin/pat?call=KYW&service=AM
is similar but not a deep notch hereto.

1070, Sept 24 at 0705 UT, traffic report on the 101 freeway, Hollywood, got to be ND 50 kW KNX Los Ángeles. Neat to be getting coast-to-coast MW simultaneously on adjacent frequencies with 1060 KYW Philadelphia. Total apartness 3843 km = 2388 miles. Still that annoying LAH = low audible heterodyne from always off-frequency KFTI Wichita. MWoffsets shows it 22 Hz low (Glenn Hauser, OK, WOR)

** U S A. 1110, Sept 19 at 0655, `C2CAM` on KFAB is now running 3.5 seconds *ahead* of 1100 WTAM, why? (Glenn Hauser, OK, WOR)

** U S A. 1130, Sept 24 at 0709 UT, KLEY ID immediately upon tunein, Wellington KS mixing with KWKH, which obviously doesn`t care about its protracted violation with 250 watt day power instead of 1 watt nights, which means we can`t call it a ``daytimer``, strictly speaking. 1 watt at night not even covers its county, let alone rimshotting Wichita:
https://radio-locator.com/cgi-bin/pat?call=KLEY&service=AM&h=N&z=o
but slightly pulled in SSEward as if ``protecting`` KWKH also in daytime. And KLEY certainly not trying to hide itself. Not that I really care vs stupid sportstalk; except for following the rules (Glenn Hauser, OK, WOR)

** U S A. 1470, Sept 23 at 0506 UT, ``1470 and 100.3, WMBD`` ID immediately upon tuneacross: Peoria IL, U4 5/5 kW. Somewhat surprising as NRC Pattern book shows very tight lobes a bit CCW from N/S day and night; but radio-locator shows only slightly favoring N/S and not notched thisaway. Website has no ``about us`` or station history; have wondered what call could signify: maybe, ``We Might Be DX``. Here`s a history,
https://fromthehistoryroom.wordpress.com/tag/1470-wmbd/
but not about the callsign; however, can it be coincidental that one early announcer was Milton BudD?! (Glenn Hauser, OK, WOR)

** U S A. 1550, Sept 24 at 1913 UT, ``The Bluegrass Express`` slogan

confirmed as listed for KKLE Winfield KS. Mobile at Great Salt Plains NWR, NW of Enid. Is sibling station of 1130 KLEY.

1400, Sept 24 at 1914 UT, ``Your Country, KEYE`` is the dominant 1400 station at midday on caradio, visiting artesia near Great Salt Plains OK. Perryton TX, in the NE Panhandle, not one I could get on groundwave back in Enid. I used to have some relatives there; it was tornadoed June 15, 2023 (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 620, Sept 25 at 0705 UT, béisbol game in English, presumably a clip rather than live, and no sign of Spanish KTNO Plano TX, the closest and normally dominant, off? The closest sportstalk formats are: KTAR AZ most likely; KMNS IA; WDAE FL. KTNO was originally KWFT Wichita Falls until hijacked into The Metroplex (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 12195, Sept 24 at 0655, still mystery open carrier, S7/S9 (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 13560+, Sept 19 at 1848, pulses at the rate of 36/minute, not heard before, distinct from the bubbling around 13560 presumably from RF ID scanners at area stores (Glenn Hauser, Enid OK, WOR)

UNIDENTIFIED. 13790, Sept 23 at 2205, S9/+10 of dead air with Doppler flutter, maybe mix with trace of mod? EiBi shows CNR1 jammer and Sound of Hope starting at 2130; also listed is Ifrikya FM, Ouargla site, ALGERIA, at 1900-0300 (Glenn Hauser, OK, WOR)
